

R I V E R C L U B

River Club is an executive business club which aims to cultivate a dynamic network of companies with business activity related to exploration, production, generation, commerce, merchant wholesale and transportation.

---

River Commodity GmbH protects its clientele with utmost care by managing River Club which formulates the framework for our services. River Commodity is an independent undertaker and manages the arrangement of transactions of energy commodities. All our clients are members of River Club and can do commodity trading within the prevailing members of the Club which guarantees that partner risk is properly mitigated.

---

The membership provides services which covers meetings and gatherings to create a discrete and collaborative environment in which high level discussion, debate, knowledge sharing and business can flourish.
